CITY COUNCIL COMMUNICATION

02/17/22	REFERENCE NUMBER: C-350	SUBJECT: Award Design Contract for the Chapin Road and Dawn Drive Channel Improvements	PAGE: 1 of 2
----------	-------------------------------	--	---------------------

The Chapin Road Channel Improvement Project will install a turf reinforcing mat and gabion mattresses in the channel to improve flow characteristics. The project will start just south of the culvert at Chapin Road and transition into the channel at Palomino Estates.

The Dawn Drive Channel Improvement Project will install modular block walls necessary to improve stormwater flow within the channel and reduce sediment deposition in the culverts. The project will start at the culvert crossing on Dawn Drive and end approximately 150 feet downstream of the culvert.

To keep costs low, both projects will be designed and constructed as one project. Both projects are included in the Capital Improvements Program approved by the City Council.

FINANCING

The project will be funded using the Stormwater Utility Fund.
